

## FOCUS

Since 2000, Homewood Construction has specialized in finish and trim carpentry for commercial buildings and residences on the Kitsap Peninsula either as a subcontractor to construction firms or as a contractor to homeowners. Projects have involved luxury residences where intricate, custom woodworking is important, to general trim work and carpentry for new construction, additions and remodels of homes, condominiums and light commercial buildings.

## LEAD STAFF

Ken Homewood, Project Manager  
and Lead Finish Carpenter

Jeff Etchey, Supervisor

Shannon Homewood, Operations

## THE HOMEWOOD EXPERIENCE

**Delivery on our promises**—From the day of the first planning meeting to the final walk through, you'll find that a building experience with Homewood means distinctive quality and service. We take the extra time to ensure that our work is done right the first time.

**Top notch quality in both materials and craftsmanship**—Our staff are trained with the highest regard for your project in mind. Any subcontractors on your project are also top notch in their field. We take responsibility for their work, attendance and price/billing.

**No job too small or large**—Even though we are one of the busiest contractors on the Kitsap Peninsula, Homewood is capable of managing both large and small jobs because of our experienced staff and the way we run our projects and schedules. Being in demand reflects our capability to provide a positive building experience.

**High level of customer satisfaction**—We are proud that our customers have given us outstanding reviews on all aspects of their building experience.

**Homewood offers you personal attention**—Our staff return your calls promptly and instill confidence that the project will be done to your satisfaction. We listen and focus on the details that matter to you, which creates trust and ultimately a problem-free project.

**DISTINCTIVE QUALITY  
SERVICE**
